

# MOODLE MYTHBUSTERS

Learn more at

<http://moodle.org/educators>

Myth #1 You need to be an expert and tech savvy to use Moodle

Myth #2 With Moodle, you need to be on computers all the time.

Myth #3 Students will love Moodle because it is online and in 'their world'

Myth #4 Moodle is just about fun and games, it's a time waster and does not encourage 'real work'

Myth #5 Moodle is just another thing we need to learn, deal with and worry about now. Admin will probably switch to something new in a year or two anyway so why bother using in and learning about it now.
